

Attention Utah Medicaid Pharmacy Providers

Gabapentin and Pregabalin Policy Changes

Effective April 1 of 2020, Utah Medicaid will enact the following safety edits for gabapentin and pregabalin:

1. Dose limit:
 - a. Gabapentin: 3,600 mg per day
 - b. Pregabalin: 600 mg per day
2. Prior authorization is required for concurrent use of gabapentin and pregabalin

Exceptions to these safety edits will require prior authorization. The “Medication Coverage Exception Request” PA form can be found at <https://medicaid.utah.gov/pharmacy/prior-authorization>.
